Customize your coverage

Because every family and business situation can be unique, we've designed our policies to provide flexibility to our customers. Policy riders and endorsements allow you to customize coverage even further to fit your individual needs.

These are intended to supplement your policy for very specific purposes. For example, a rider can provide a death benefit for your children or provide benefits if you become disabled. You choose specific riders or endorsements to create the additional coverage you need and to fill any gaps in your long-term plans.

Please note that riders and endorsements may not be available in all states, and state variations may apply.

A portion of the policy's death benefit can be accelerated if the insured has a qualifying chronic illness. The Insured must not be able to perform two of the six activities of daily living or require substantial supervision to protect against threats to health and safety due to severe cognitive impairment.

- Accelerated death benefit amount:
 - L647: Up to 70% of the policy's death benefit, or up to \$250,000, whichever is less
 - L643: Up to 75% of the policy's death benefit, or up to \$250,000, whichever is less
- There is no cost or premium charge, but the death benefit will be reduced by the accelerated amount paid plus an acceleration charge.
- This rider may not be available in all states, and state variations may apply.
- A minimum of 10% of the base death benefit must remain in force after the accelerated payment is made.
- Each benefit payment is subject to 28.57% acceleration charge, which is added to the accelerated payment to determine the total accelerated amount. The death benefit will be reduced by this total amount, which is greater than the accelerated payment.

L643 available on:

- Protective Estate MaximizerSM II single premium whole life

ExtendCareSM Rider (L652)

Chronic illness is defined as being unable to perform at least two activities of daily living without assistance for at least 90 days or requiring substantial supervision for protection from health and safety threats due to severe cognitive impairment.

Please note: This rider is intended to be received on a tax-favorable basis. The rider falls under IRC Sec. 101(g) Accelerated Death Benefit guidelines, not under health care regulations.

- Issue ages: 20-80 (subject to policy issue age limits)
- Maximum substandard rating: Table 4 and must meet all medical underwriting eligibility criteria
- Minimum face amount: \$100,000
- Maximum face amount: \$5 million
- Elimination period: 90 days
- Benefit period: 12 months
- Benefit payment type: Monthly or lump sum
- Lifetime maximum benefit: 100% of the available policy death benefit at time of claim
- The Maximum Monthly Benefit may not exceed the monthly equivalent of the per diem limitations declared by the Internal Revenue Service and may not exceed 5% of the base policy face amount.
- At time of claim, a lesser monthly benefit amount of at least \$250 may be requested if you do not require the entire maximum monthly benefit amount. The lifetime maximum benefit is only reduced by the amount of benefit actually taken each month. Monthly benefit options are subject to change.
- Rider charge: Monthly charge varies by sex, issue age, underwriting class, face amount, waiting period length, monthly benefit and policy year
- Availability: Only at policy issue

Available on:

- ProClassic II UL
- Protective Dynamic Plus UL
- Protective Lifetime Assurance UL

The policy's cost basis is reduced by the month-to-date rider cost deductions of ExtendCare.

ExtendCare Form (L652 7-20/ICC20-L652) is available only at issue and at an additional cost. Actual terms and conditions contained the rider govern all benefits provided. Please see rider for more detailed information. Assumes medical and financial underwriting qualification at time of initial application. ExtendCare falls under IRC Sec. 101(g), Accelerated Death Benefit guidelines and does not fall under health regulations. This differentiation could affect eligibility for public assistance programs such as Medicaid, Supplemental Income, or others. Purchasers should consult a qualified advisor along with legal or tax advisor to determine if the rider will affect their initial or continued eligibility for public assistance programs or other tax-related decisions.

The ExtendCare benefits are intended to be received on a tax-favored basis under section 101(g) of the Internal Revenue Code. Once eligible for the benefit, policyholders will receive a monthly payment (not exceeding 5% of the base policy's death benefit amount or the current per diem equivalent) accelerated from their policy's death benefit. The ExtendCare rider is intended as a nonmedical supplement. While long-term care riders pay temporary and permanent claims, policyholders with the ExtendCare rider will qualify for accelerated monthly benefits after being certified by a licensed healthcare practitioner as chronically ill for a period that is expected to last 90 days. Additionally, if the benefits for a stand-alone long-term care policy are not used, the policy may end with not payment while the face amount of a life insurance policy with an accelerated death benefit rider will remain intact if the benefits are not used. Once you qualify for the benefit, the payments will continue every month during the benefit period regardless of whether expenses are actually incurred.
